Exercise 1

Interactive Exercise

Questions

The purpose of this handout is to provide the participants with the entire list of questions used in this session. Recommend them to (a) complete the card in their own time as an additional exercise in self-analysis and (b) use this method in other events. Remind them to adjust the questions to respond to the needs of the event

1. I feel motivated to deal with laws and policies relevant to genetic resource management when:

During this workshop I expect _____

1. When I deal with controversies over the ownership of plant genetic resources, I feel anxious when:

However, my reaction is _____

2. When I am doing research in a multidisciplinary team, I perceive myself as a person who:

Because _____

4. My perception of modern-day management of genetic resources is that: _____

Because _____

5. I think that my peers in genetic resource research perceive me as: _____

Because _____

6. When I am in charge of the physical care of plant genetic resources for food and agriculture (PGRFA) I feel that:

Because _____

7. People who really get to know me as a genetic resource manager say: _____

Because _____

8. I think my scientific and management skills in dealing with genetic resource issues are:

Because _____

9. I like to learn about laws, regulations, guidelines and policies for genetic resource research when:

Because _____

10. As a manager of a plant genetic resource, I am pleased when: _____

And I am not pleased when: _____

11. When I am dealing with the complexity and contentiousness of the new bio-political environment, I feel irritated when:

Because _____

12. While learning about intellectual property rights issues, I prefer to discuss my thoughts and doubts with:

Because _____

13. When I am applying laws and policies for genetic resource management, I tend to:

However, _____

14. When I am among new peers whom I perceive to be knowledgeable about laws and policies on genetic resources management, I:

Because _____

15. When I participate in a group discussion on laws and policies on genetic resources management, I tend to be:

this is why I expect my team members to be: _____

16. I am sure I could do a better job managing genetic resources if: _____

Because _____

17. As a manager of plant genetic resources, I dislike being frustrated. That is why I:

to improve my morale.

18. During this exercise to share the participants' knowledge on Laws & Policies on Genetic Resource Management I feel:

Because _____

19. As a manager of plant genetic resources, I feel frustrated when:

20. During this exercise to share participants' knowledge on Laws and Policies on Genetic Resource Management I feel:

Because _____

21. While participating in this workshop on Laws & Policies on Genetic Resource Management, I promise myself:

Because _____
